Contact	Mr. Mike Nash	Net Prices	<input checked="" type="checkbox"/>

The settings of the Bill-to customer are considered. Effects of the net prices are only visible on printed documents.

If net prices = false, the discount % is displayed on the document under line discount. Under Sales Price, the price without the discount is displayed. The line discount is calculated only for the amount.

Order Confirmation 1027

Pos	Item No.	Quantity	Unit Price	Discount %	Amount
1	1001 Rennrad	1 Piece	4'000.00	15	3'400.00
Total USD Excl. VAT					3'400.00

Net price = false

If net prices = true, the line discount is not shown on the document. With this setting, the line discount is already included in the sales price. Invoice discounts, in turn, can be granted and are printed.

Order Confirmation 1027

Pos	Item No.	Quantity	Unit Price	Discount %	Amount
1	1001 Rennrad	1 Piece	3'400.00		3'400.00
Total USD Excl. VAT					3'400.00

Net price = true
