# Setup Report Languages

1.1 Report Languages

In the report languages, you can define languages in which you want to configure your documents.
This setup is **cross-company**.

You can find the report language list via the global BC search:

In this setup the languages for which translations are to be made in the documents are defined. You can define up to 10 languages.

1.2 Document Pictures List

In the document pictures, you can upload header and footer lines for your documents. You can find the Document Pictures List using the global BC search:

Proceed as follows:

- Menu bar > + *NEW*

Document Picutre

Picture ⌄

Selection Type
- *Report Header* respectively *Report Footer*: this graphic is displayed on the first page of a header or footer.
- *Report Header 2* respectively *Report Footer 2*: this graphic for the header or footer is displayed from page 2 onwards.

Notes:
- In the picture documents card, the info area must be displayed via the info-i so that graphics can be uploaded.
- Graphics for headers and footers must be deposited in the dimensions 18 x 2 cm.
